New introductory Multidisciplinary Palliative Care Education for ALL health care Providers

(Formerly Level I Program)

Hospice Palliative Care Education

This is an 8 week (3 hour classes) standardized curriculum, funded by the Ministry of Health-Long Term Care Division and is recognized throughout Ontario.

“The FUNDAMENTALS” course is

Recommended for:

ALL Health Care Providers

Anyone Interested in Becoming a Hospice Palliative Care Volunteer

Topics will include:

1. Introduction to Hospice Palliative Care
2. Dying-Death and Hospice Palliative Care
3. Disease Management
4. Physical Issues
5. Psychological/Spiritual Issues
6. Social/Practical Issues
7. End-of-Life Care and Death Management

8. Grief, Loss and Managing Occupational Stress

After 6 months experience in his or her role following active participation in the “Fundamentals of Hospice Palliative Care” education program* and with support from peers/managers, *the learner will have the ability to influence the illness experience for the person and family to the extent that the learner:*

1. Demonstrates sensitivity, understanding and respect for the individuality of the person, family and team/caregivers involved in the palliative experience.
2. Observes issues associated with illness and bereavement.
3. Effectively communicates with the person, family and team.
4. Recognizes and reports changes in any of the domains of issues associated with illness and bereavement (i.e. disease management, physical, psychological, loss/grief, social and practical, end of life/death management, and spiritual).
5. Provides palliative supportive care strategies.
6. Actively contributes to the team approach to hospice palliative care.

*The Hospice Palliative Care Education: The Fundamentals program is based on A Model to Guide Hospice Palliative Care, (2002), specifically the Domains of Issues Associated with Illness and Bereavement.

Course Expectations

- 100% attendance and active participation in each session
- Satisfactory completion of assignments and module readings
- Respect for feelings and opinions is required
- Confidentiality is mandatory
- Although there will be no formal exams, completion of program evaluation is required.

“The Fundamentals of Hospice Palliative Care” is a prerequisite course for *CAPCE and **APCE

*Comprehensive Advanced Palliative Care Education for RNS & RPNs

**Advanced Palliative Care Education for PSWs, HCAs, Volunteers, etc.

These classes are facilitated by a local or regional professional with teaching experience and expertise in the field of Hospice Palliative Care.
